PREPARED BY DURRELL SMITH · C.PRICE

GUIDANCE · INSPIRATION · COURAGE · LIGHT

Ashley Eady Smith

A home for what she gives the world, *effortlessly*.

GET POP BOOK A SESSION PLAN A RETREAT

Feel inspired, uplifted, *encouraged*.

Everything in this plan traces back to Ashley's 1:41 recording. Nothing is added that she did not ask for.

"As soon as you get to the website, I want you to feel inspired and uplifted. I want you to feel encouraged."

"A dedication to who I am and what I naturally provide to the world by the signature of my soul... guidance, inspiration, courage, and light."

"Obviously a photo of me, that talks about who I am and what I do. And then lots of different clips of me giving speeches."

"On the product section, I want to sell POP — Little Pocket of Prayers. One-on-one coaching, like Encouragement Sessions... and also group and corporate retreats."

REQUIREMENTS EXTRACTED

#	REQUIREMENT	TYPE
R1	Domain is her full name .com	Infra
R2	First impression: inspired, uplifted, encouraged	Feel
R3	A dedication to what she gives: guidance, inspiration, courage, light	Copy
R4	Her photo with who she is and what she does	About
R5	Many clips of her speaking	Speaking
R6	Sell POP, Little Pocket of Prayers	Product
R7	Sell one-on-one Encouragement Sessions	Service
R8	Sell group & corporate retreats	Service
R9	Gallery of her drawings and paintings	Art
R10	Her original music, playable on the site	Music

> R9, R10 and the opening ident were added by Durrell after the recording. Her songs move here from cprice.studio/ashley. A blog or newsletter stays out of scope unless she asks.

R11 · OPENING IDENT

Her signature writes itself.

On first arrival: paper and drifting fog, the signature draws on in ink over ~2.2 s through a stroke-order mask, holds with a faint Grenadine glow, then shrinks into the header as the site's mark while the hero fades up. Under 3.5 s, skippable, once per session, static under reduced-motion. The signature replaces the monogram everywhere.

Seven pages, *ten* requirements.

Home delivers the feeling; About the person; Speaking, Art and Music the proof of who she is; Shop the three offers. No backend: Stripe Payment Links and a Netlify form.

/ — Home — R2 · R3

- Sky hero, portrait, her name
- "Guidance, inspiration, *courage*, and light."
- Who-I-am paragraph
- Featured speech clip
- Three artworks + latest song
- Three offer notes

- Interest: POP / Session / Retreat / Speaking / Artwork
- Netlify Form, honeypot
- Socials

CONTENT LIVES IN MARKDOWN, NOT IN PAGE CODE

`src/content/offers/*.md` name · price · CTA URL → Astro build → `clips/` · `art/` · `music/` + YouTube feed → Static pages on Netlify

A price change, a new clip, a new painting or a new song is one small file. Anyone with GitHub access can make it from a phone, and each offer can later grow into a full product page without changing the map.

Sanzo Wada, combination *193*.

The site inherits the cprice.studio system and swaps its pencil accents for the Dictionary of Color Combinations palette Ashley chose. Naples Yellow is the bridge: it is the soft sticky-note yellow of the C.PRICE gateway.

FROM ASHLEY'S COPY · NO. 193

Grenadine Pink
洗朱 · courage, action
`#f48067`

Naples Yellow
淡黄蘗 · warmth, light
`#fbe6a0`

Light Porcelain Green
老竹色 · guidance, calm
`#00908a`

Paper
`#f4f2ed`

Ink
`#111110`

Rule
`#d6d3cc`

ROLE	USE	CONTRAST ON PAPER
Naples Yellow	Hero wash, highlights, section backgrounds, hover fills. Never text.	1.1:1 · fills only
Grenadine Pink	Primary button tint, pull-quote rule, hover highlights, the signature mark.	2.3:1 · fills only, never text
Light Porcelain Green	Italic headline word, secondary tint, callout rule, focus rings. For small text (links, labels) use the deepened shade `#00726d`.	3.5:1 large text · 5.2:1 deepened

The *Voice*, now with a home.

EB GARAMOND 400 · ITALIC FOR THE EMPHASIZED WORD

FOLK · WITH ASHLEY · 2024 — DM MONO, UPPERCASE, 0.14EM, DEEP PORCELAIN

Left border in Porcelain Green on a faint green panel — the callout style from cprice.studio/ashley, carried over as is. Hairline rules, numbered rows and generous whitespace stay identical so the two sites read as family.

Look up. Take a *note*.

One photographer, one eye: the same low-angle sky viewpoint as the C.PRICE gateway, kept bright and cool instead of sepia. The calls to action are the gateway's own sticky notes, lifted from the cprice.studio code: same paper, same handwriting, same tilt and bob.

CPRICE.STUDIO GATEWAY · SEPIA SKY, STICKY NOTES

ASHLEY'S HERO · REFERENCE SKY, 8/31/26, STICKY-NOTE CTAS

Imagery rules

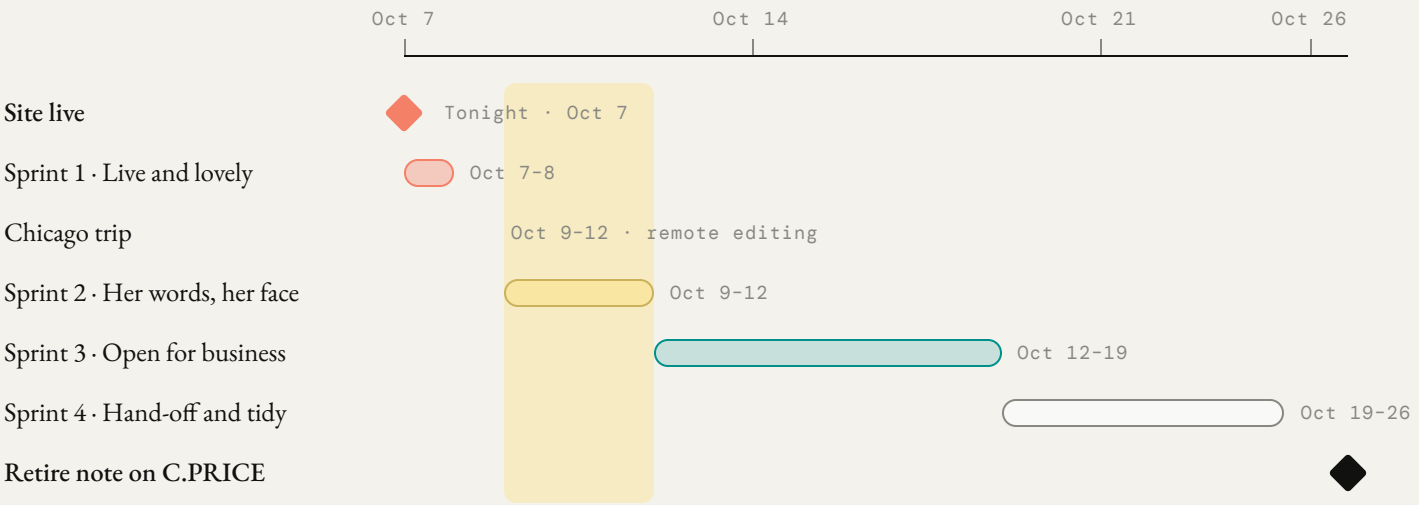

Hero	Sky full-bleed behind the headline; Naples Yellow gradient fades it into paper. Keep the camera date stamp.
Portraits	Outdoors, natural backlight, warm skin. No cooling filters.
Dividers	More of Durrell's sky, cloud and garden photographs. No stock.
Files	WebP, 1600 px max, `src/assets/`.

Sticky note recipe · from cprice.studio

Faces	`note-blank-a…d.webp` from `/gateway/`, rotated so neighbours differ
Size	`--nw: clamp(120px,15.5vw,152px)`, square `.eggwrap`
Paper	Fallback gradient `#f6e9a0 → #e7d678` + curled corner `:after`
Hand	Rock Salt (`DashHand`), `.who` at .099 × nw, `.role` at .069 × nw, rotate −2°
Tilt	−2.4°, 1.6°, −1°, 2.2°, −1.8° per sibling
Motion	`bob` ±8 px, 8.4–11 s staggered · off under reduced-motion
Hover	Deeper double drop-shadow + brightness 1.04 · focus ring in Porcelain Green
Label	DM Mono caps beneath, deep porcelain `#00726d`
Glass	Only the floating back-to-top pill (blur 8 px), like the heart pill on C.PRICE

Live tonight. *Lovely* by the weekend.

Sprint 1 ships a complete seven-page site tonight with marked placeholders. Sprints 2–4 are deployable increments, the first of them done from Chicago.

TONIGHT · OCT 7

Live and lovely

Domain resolves to a finished-looking site satisfying R1–R8.

- [ ] Confirm spelling, register domain, DNS → Netlify
- [ ] Repo `ashley-eady-smith`, Astro 5, vanilla CSS
- [ ] Netlify deploys + branch previews
- [ ] Tokens: palette 193, Garamond, DM Mono
- [ ] Signature ident: draw-on, FLIP into header
- [ ] Home, About, Speaking, Art, Music, Shop, Contact
- [ ] Clips from YouTube feed at build
- [ ] Art gallery + lightbox; music track list
- [ ] SEO, OG image, sitemap
- [ ] Lighthouse 90+ mobile

OCT 9-12 · FROM CHICAGO

Her words, her face

Every placeholder becomes Ashley's real content.

- [ ] Real portraits: hero, about, OG
- [ ] Ashley edits bio and headline
- [ ] Mark 3–4 featured clips, hide non-speeches
- [ ] Photograph her drawings & paintings
- [ ] Add songs, MP3s, cover art
- [ ] Stripe products + Payment Links
- [ ] POP photo, price, format
- [ ] Session length, price, booking method

WEEK OF OCT 12

Open for business

Commerce that runs without you.

- [ ] Booking calendar for sessions
- [ ] Retreat inquiry flow + auto-reply
- [ ] POP fulfilment: shipping or download
- [ ] Analytics, Google Business profile
- [ ] Accessibility pass, captions

WEEK OF OCT 19

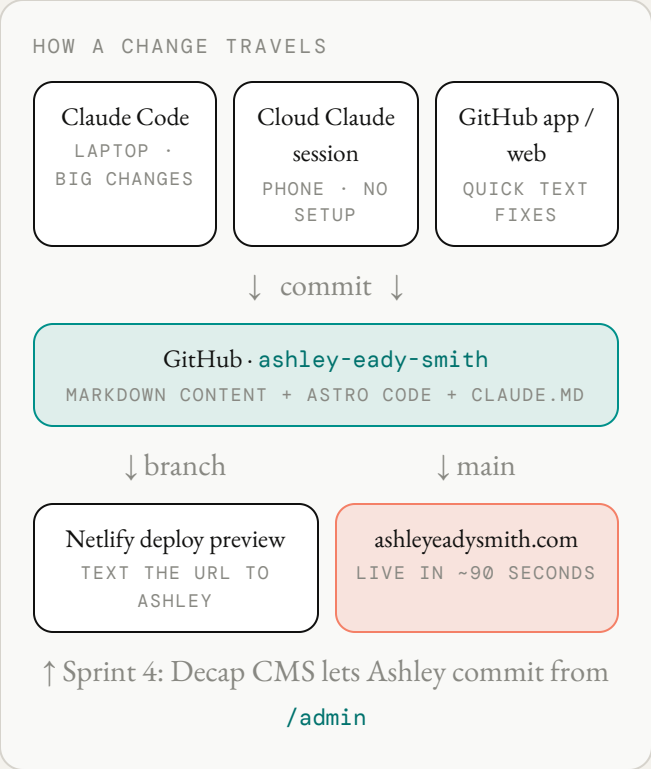

Hand-off and tidy

Ashley updates it herself; C.PRICE points home.

- [ ] Optional Decap CMS at `/admin`
- [ ] Replace Ashley sticky note on cprice.studio with a link
- [ ] Redirect `/ashley`
- [ ] Redirect `/ashley` → her /music
- [ ] One-page README

Anything that can commit can *publish*.

The site is a GitHub repo that Netlify rebuilds on every push. The Mac mini is never required after tonight.

SITUATION	USE
Laptop with you, bigger change	**Claude Code** · clone, describe, review diff, push
Phone or hotel laptop	**Cowork cloud session** · `gh` in the cloud workspace; nothing installs on your device
Price, bio line, typo	**GitHub mobile** · edit the markdown file, commit
New clip or product	One new file in `src/content/`
Preview before live	Push to a branch → **deploy preview URL**
Ashley herself (Sprint 4)	**Decap CMS** at `/admin`, Netlify Identity login

> Three things set up tonight make this work: content in markdown rather than page code; branch previews so nothing goes live unreviewed; and a `CLAUDE.md` teaching any future session the design system, so a change made from Chicago speaks the same language as tonight's build.

One blocker. Everything else can *wait*.

The spelling of her name decides the domain, the repo and the monogram. Every other item has a working assumption that changes later without rework.

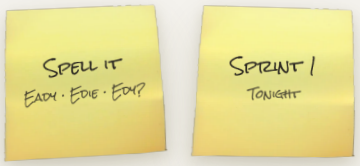

- [ ] **Name and domain spelling (blocks R1).** The recording sounds like *ashleyedysmith.com*; cprice.studio credits her as *Ashley Eady Smith*; Durrell typed *Edie*. None of the three domains resolves today. Assumed for now: **Eady**.
- [ ] **Commerce depth.** Assumed Stripe Payment Links for POP and Sessions, a form for Retreats. Full Stripe Checkout can replace the links in Sprint 3.
- [ ] **POP format and price.** Physical booklet, digital download, or both?
- [ ] **Encouragement Session details.** Length, price, self-serve calendar or by request?
- [ ] **Assets on hand tonight.** Portraits, POP photo, bio copy, photos of her artwork, music files or cover art. Clips come from YouTube @ashleysmith_esq automatically.
- [ ] **Her songs.** Resolved: *Momma Gone* and *Sega on a Saturday* move to her /music page. Still open: does the Momma Gone single stay for sale on C.PRICE too? Default: both, same Stripe link.
- [ ] **Socials and contact email** for the footer and form notifications.

Assumptions made without asking

Astro + Netlify + GitHub to match cprice.studio; markdown content collections so non-developers can edit; ink text on glass for contrast over clouds; no cookie banner because Sprint 1 adds no tracking.

Next step

Confirm the spelling, then paste the Sprint 1 prompt (appendix) into Claude Code from an empty folder with the sky photo and any portraits inside it. The living version of this brief, with the editable prompt, is in Claude Docs.

CONFIRM FIRST

RUN THE PROMPT

Paste from a folder holding the notes and the signature.

Replace the two bracketed items first. Before you start, put in the folder: the sky photo, any portraits, `signature.png`, `signature.svg`, and a `notes/` folder with `note-blank-a…d.webp` and `RockSalt.ttf` copied from the cprice.studio repo's `public/gateway/`. The same prompt is in the Claude Doc and in the .md file delivered with this brief.

```
Build a production-ready personal website for my wife, Ashley Eady Smith [confirm spelling], a speaker, encourager, artist and singer. Work in this folder. Create a private GitHub repo named ashley-eady-smith with the gh CLI, commit as you go, and set it up for Netlify (netlify.toml, build command `npm run build`, publish `dist`). Do not deploy; I will connect Netlify myself.

## What the site must do (from Ashley, verbatim intent)
The moment it loads, a visitor should feel inspired, uplifted and encouraged. The site is a dedication to what she naturally gives people: guidance, inspiration, courage, and light. It needs: a photo of her with text about who she is and what she does; lots of clips of her giving speeches; and a product section selling (1) POP, "Little Pocket of Prayers by Ashley Eady Smith", (2) one-on-one coaching she calls Encouragement Sessions, (3) group and corporate retreats. I (Durrell) added two more sections: a gallery of her drawings and paintings, and her original music. No blog, no newsletter.

## Opening ident (first thing a visitor sees)
Her handwritten signature is the brand mark and the opening. Files in this folder: `signature.png` (1876x855 scan) and `signature.svg` (a single filled path traced from it, `fill-rule="evenodd"`, viewBox 0 0 1876 855). Copy both to `public/brand/`.
- Build `<SignatureIdent>` as a fixed full-viewport overlay that renders only on `/` and only when `sessionStorage.aesIdentSeen` is unset. The hero beneath renders immediately; the ident must never block LCP or hide content from crawlers.
- Beat 0 (0 to 0.3s): paper ground `#f4f2ed` with the cprice.studio gateway fog: 3 or 4 absolutely positioned spans, `border-radius:50%`, `background:radial-gradient(ellipse at 50% 50%,#ffffffe6,#ffffff9e 42%,#fff0 72%)`, `filter:blur(44px)`, drifting with `@keyframes drift-a{0%,to{transform:translateZ(0)}50% {transform:translate3d(6%,-2%,0)}}` over 24 to 36s.
- Beat 1 (0.3 to 2.5s): the signature writes itself. Implement as an inline SVG: the filled signature `<path>` in ink `#111110` is revealed through `<mask>` containing ONE thick stroked path (stroke `#fff`, `stroke-width` about 110 in viewBox units, `stroke-linecap:round`, `stroke-linejoin:round`, `fill:none`) whose geometry follows the pen's own order through the signature from the left flourish to the final two strokes on the right. Author that centerline by hand: open `signature.png`, trace a polyline of 50 to 80 points along the middle of the stroke in writing order (it is one connected stroke with a few lifts; for lifts, continue the path through the gap so the mask still covers it), smooth it with Catmull-Rom to cubic Béziers, and verify by rendering the mask path semi-transparent over the signature and screenshotting it; iterate until the mask covers every part of the ink. Animate `stroke-dasharray`/`stroke-dashoffset` from the path's `getTotalLength()` to 0 over 2.2s with `cubic-bezier(.4,0,.2,1)`. If after a reasonable effort the centerline is not covering well, fall back to a soft-edged left-to-right wipe: a `<linearGradient>` mask with a 12% feathered edge translated across the signature over 1.8s. Either way it must look like handwriting appearing, not a slideshow.
- Beat 2 (2.5 to 2.9s): hold; a faint Grenadine Pink `#f48067` radial glow at 18% opacity blooms behind the ink and fades.
- Beat 3 (2.9 to 3.4s): FLIP transition. Measure the header's signature slot, then animate the big signature's transform (translate + scale) into that slot (about 140px wide) while the fog and overlay fade to 0 and the hero fades up (`opacity` 0 to 1, `translateY` 12px to 0, 600ms). Then unmount the overlay and set `sessionStorage.aesIdentSeen = "1"`.
- Skip: any click, tap or keypress jumps to Beat 3. A "Skip" label in DM Mono caps, bottom-right, ink at 60% opacity.
- `prefers-reduced-motion: reduce`: no draw-on and no FLIP; the signature fades in over 600ms, holds 400ms, fades out, hero appears. Total under 1.5s.
- The signature replaces any monogram: it is the header mark (links to `/`), the footer mark, the fixed bottom-right medallion (signature in ink on a 54px paper disc with the C.PRICE medallion's shadow, like the C.P medallion on cprice.studio), the favicon (a simplified crop of the big loop, generated as SVG + PNG), and the Open Graph image (signature over the sky photo).
```

Pages
- `/` Home: full-bleed sky hero (see imagery), her name in EB Garamond with the word *courage* in italic, one-line promise "Guidance, inspiration, courage, and light.", a short who-I-am paragraph, one featured speech clip (the top featured or newest from her YouTube channel), a strip of three artworks from /art and the latest track from /music, three offer sticky notes (POP, Encouragement Sessions, Retreats), a closing invitation with a "Say hello" sticky-note CTA to /contact.
- `/about`: portrait left, bio right in her voice. Draft placeholder bio from this: she gives guidance, inspiration, courage and light; people come to her for encouragement; she began offering one-on-one Encouragement Sessions during COVID; she also draws, paints and sings. Mark placeholder copy with an HTML comment `<!-- ASHLEY TO REVIEW -->`.
- `/speaking`: at build time, fetch Ashley's YouTube channel feed `https://www.youtube.com/feeds/videos.xml?channel_id=UCNWaQf6xlGaYAOry-ZCb9OA` (channel @ashleysmith_esq), parse the entries (title, videoId, published), and render them newest first as privacy-enhanced embeds (`youtube-nocookie.com`) using lite-youtube-embed or a click-to-load thumbnail so the page stays fast. Add a content collection `src/content/clips/*.md` (frontmatter: videoId, title, event, year, featured, hidden) that overrides or hides feed entries and marks featured ones; featured clips appear first and the top featured one is the Home page clip. If the feed fetch fails during build, fall back to the content collection and log a warning rather than failing the build. Numbered rows (01, 02) on desktop, cards on mobile. "Book Ashley to speak" sticky-note CTA to /contact. Add a "Watch more on YouTube" plain DM Mono text link to https://www.youtube.com/@ashleysmith_esq.
- `/art`: her drawings and paintings. Content collection `src/content/art/*.md` (frontmatter: title, year, medium, dimensions, image, available: boolean, order). Masonry/columns gallery using Astro's Image component (WebP, srcset), captions in DM Mono (title in Garamond italic, then year · medium · dimensions). Tap/click opens a lightweight CSS/JS lightbox (no library) with prev/next and Esc. Works with available: true show a NoteCTA "Ask about this piece" linking to /contact?interest=artwork&piece=<slug>. Seed three placeholder works as Naples Yellow blocks with "Artwork coming" in DM Mono so the layout reads before photos arrive.
- `/music`: her original music. Content collection `src/content/music/*.md` (frontmatter: title, year, credits, youtubeId?, audio? (path to MP3 in public/audio), cover?, buyUrl?, order). Numbered track rows (01, 02) exactly like the list on cprice.studio/ashley: Garamond title, DM Mono credits line, hairline rules. Each row expands to an inline player: a youtube-nocookie lite embed when youtubeId is set, else a native `<audio>` element styled in DM Mono. Tracks with buyUrl show a NoteCTA "Own it". Seed two tracks carried over from cprice.studio/ashley: "Momma Gone" (Folk · written by Durrell Lamar · vocals Ashley Eady Smith · 2024, youtubeId EdFSDXgwF4U) and "Sega on a Saturday" (Folk · with Ashley · 2024, youtubeId sIVn7xz0HoY).
- `/shop`: three offers from `src/content/offers/*.md` (frontmatter: name, tagline, price, format, cta_label, cta_url, kind: product|session|retreat). POP and Sessions CTAs point to placeholder Stripe Payment Link URLs (`https://buy.stripe.com/PLACEHOLDER`); Retreats points to /contact?interest=retreat.
- `/contact`: Netlify Form (`data-netlify="true"`, honeypot) with name, email, interest select (POP, Encouragement Session, Retreat, Speaking, Artwork), message, and a hidden `piece` field filled from `?piece=`. Pre-select from `?interest=`.
- Shared layout: header with the signature mark left and six links (About, Speaking, Art, Music, Shop, Contact) in DM Mono caps; footer with signature, socials, and "Made with Durrell · C.PRICE" in DM Mono.

Design system (inherit from cprice.studio, my other site)
- Stack: Astro 5, zero JS frameworks, vanilla CSS with custom properties, @fontsource/eb-garamond (400, 500, italic) and @fontsource/dm-mono (400, 500).
- Ground: paper #f4f2ed, off-white #f9f9f7, ink #111110, ink-mid #444440, ink-light #888882, rule #d6d3cc.
- Palette: Sanzo Wada, Dictionary of Color Combinations no. 193. Naples Yellow #fbe6a0 (washes, highlights, hover fills, never text), Grenadine Pink #f48067 (primary accent for fills: pull-quote rule, ident glow, hover highlights; never text, it is 2.3:1 on paper), Light Porcelain Green #00908a (italic headline word, callout rule, focus rings) with a deepened shade #00726d for small text such as links and mono labels (5.2:1 on paper). Expose all as CSS variables in `src/styles/tokens.css`.
- Type: EB Garamond for headlines and body (clamp 2.6rem to 5rem for h1, italic for the emphasized word, which is set in Porcelain Green). DM Mono uppercase with 0.14em tracking for eyebrows, metadata, prices, labels. Hairline rules between list rows. Generous whitespace; the above-the-fold area is mostly paper and Naples Yellow with the portrait as the only dark mass.
- Buttons / CTAs: every call to action is a STICKY NOTE copied from the cprice.studio gateway, not a conventional button. Copy `notes/` to `public/notes/`. Build a `<NoteCTA>` Astro component with this exact recipe. Markup: `<a class="note-cta" href><span class="eggwrap"><span class="note is-photo"><img src="/notes/note-blank-a.webp" alt=""><span class="hand"><span class="who">Get POP</span><span class="role">Little Pocket of Prayers</span></span></span></span><span class="lbl">$12 · pay what you want</span></a>`. CSS: `--nw: clamp(120px, 15.5vw, 152px)`; `.eggwrap{position:relative;width:var(--nw);height:var(--nw);display:block}`; `.note{position:absolute;inset:0;display:flex;align-items:center;justify-content:center;padding:12px 8px 16px;background:linear-gradient(196deg,#ffffff8c,#fff0 34%),linear-gradient(170deg,#f6e9a0,#f0e28a 56%,#e7d678);animation:bob 9s ease-in-out infinite}`; `.note:after{content:"";position:absolute;right:0;bottom:0;width:26px;height:22px;background:linear-gradient(135deg,#0000 46%,#a0965a4d 52%,#f7efae 56%)}`; `.note.is-photo{background:none;filter:drop-shadow(0 3px 4px rgba(104,96,48,.22)) drop-shadow(0 10px 16px rgba(104,96,48,.14))}`; `.note.is-photo:after{content:none}`; `.note.is-photo>img{position:absolute;inset:0;width:100%;height:100%;object-fit:contain}`; `@font-face{font-family:DashHand;src:url(/notes/RockSalt.ttf);font-display:swap}`; `.hand{position:relative;z-index:2;text-align:center;font-family:DashHand,cursive;line-height:1.28;transform:rotate(-2deg);color:#2e2a22}`; `.hand .who{display:block;font-size:calc(var(--nw)*.099);white-space:nowrap}`; `.hand .role{display:block;font-size:calc(var(--nw)*.069);margin-top:calc(var(--nw)*.059);opacity:.85;white-space:nowrap}`; tilt siblings with `:nth-child(1) .eggwrap{transform:rotate(-2.4deg)}` then 1.6deg, -1deg, 2.2deg, -1.8deg; `@keyframes bob{0%,to{transform:translate3d(0,8px,0)}50%{transform:translate3d(0,-8px,0)}}` with staggered durations (9.5s, 11s, 8.4s, 10.3s, 9s) and negative delays; hover/focus `.note-cta:hover .note.is-photo,.note-cta:focus-visible .note.is-photo{filter:drop-shadow(0 8px 10px rgba(40,30,20,.3)) drop-shadow(0 18px 26px rgba(40,30,20,.18)) brightness(1.04)}`; `.note-cta:focus-visible{outline:3px solid #00908a;outline-offset:6px;border-radius:3px}`; `.lbl{margin-top:18px;text-align:center}` in DM Mono caps 0.14em, deep porcelain #00726d. Rotate through faces a, b, c, d so adjacent notes differ. Respect prefers-reduced-motion (no bob). Use NoteCTA for: the three offer cards on Home (name in .who, offer in .role, price in .lbl), the three offers on /shop, "Book Ashley to speak" on /speaking, "Ask about this piece" on /art, "Own it" on /music, and "Say hello" at the end of Home. Inline text links and the contact form submit stay plain: ink text link, or a flat ink button in DM Mono caps like cprice.studio/ashley. The only glass element is a small floating back-to-top pill: `background:#ffffff80;border:1px solid rgba(20,20,18,.12);backdrop-filter:blur(8px);border-radius:999px`, like the heart pill on cprice.studio's music page.
- Callouts: left border 3px in Porcelain Green on a faint green-tinted panel, like the quote panel on cprice.studio/ashley.
- Motion: the ident above; one slow fade-up on the hero (600ms); color transitions on hover; the sticky-note bob. Nothing bouncy. Respect prefers-reduced-motion everywhere.

```
## Imagery
- Hero: use `sky.jpg`, a sunflower backlit against a bright cloudy sky shot looking up. Full-bleed, kept bright and cool (no sepia), with a Naples Yellow gradient fading into paper at the bottom. Keep the camera date stamp visible.
- Portrait: use `[portrait.jpg]` if present, otherwise a 4:5 placeholder block in Naples Yellow with "Portrait of Ashley" in DM Mono.
- Convert images to WebP at 1600px max with Astro's Image component. Store in `src/assets/`.

## Quality bar
- Mobile first; test at 375px and 1440px. Lighthouse 90+ on all four categories, with the ident overlay present.
- Semantic HTML, skip link, visible focus states, alt text on every image, captions field on clips.
- SEO: per-page title and description, Open Graph image (signature over the sky), favicon from the signature, sitemap via @astrojs/sitemap, `site` set to https://ashleyeadysmith.com [confirm].
- Write `CLAUDE.md` at the repo root documenting the tokens, the NoteCTA recipe, the SignatureIdent beats, the content collection schemas, and the rule "follow cprice.studio's design language; calls to action are the gateway's sticky notes, never conventional buttons; the signature is the mark". Write a short `README.md`: how to add a clip, an artwork or a track, change a price, swap a photo, and how Netlify deploys.
- When finished, run the build, fix any errors, record a short screen capture or sequential screenshots of the ident (0.5s, 1.5s, 2.5s, 3.4s), take screenshots of all seven pages at both widths, and summarize what still needs Ashley's real content.
```
